PROJECTS

Edge Vox – AI Voice Support Agent

Developed a voice-based technical support agent by fine-tuning the Qwen 7B model with Oumi on custom technical datasets. Integrated speech recognition, LLM inference, and text-to-speech to deliver real-time, context-aware troubleshooting optimized for edge devices.

Smartphone Usage & Addiction Analytics

Performed end-to-end analysis of a 7,500-record smartphone usage dataset using Python, Pandas, NumPy, Matplotlib, and SciPy. Applied data cleaning, statistical hypothesis testing (ANOVA, Chi-Square, Pearson/Spearman), correlation analysis, outlier detection, and interactive visualizations to identify factors influencing smartphone addiction and user wellbeing.

EDUCATION

2025 – Present	B.Tech in Data Science & Artificial Intelligence Thapar Institute of Engineering & Technology, Patiala	CGPA: 8.05
2025	CBSE Class 12 Sri Lal Convent School, Delhi	85.4%
2023	CBSE Class 10 Hillwoods Academy, Delhi	90%

SKILLS

Languages	Python, C++, HTML, CSS
Libraries	Pandas, NumPy, Matplotlib, Seaborn
Frameworks	React, Node.js
Databases	MySQL, SQLite
Backend	Firebase, Supabase
CAD Tools	AutoCAD, SolidWorks
